Action requested from the EGM IWG

The EGM IWG is requested to:

- Review and approve the EGMP budget estimate for 2025 (Annex 1);
- Take note of the indicative scale of voluntary contributions (Annex 2);
- Review and approve the proposed cPOW for 2025 (Annex 3).

Introduction

According to Rule 31 of the Modus Operandi of the AEWA European Goose Management International Working Group (EGM IWG) the annual running costs for the European Goose Management Platform (EGMP), including servicing the EGM IWG, is provided by the Range States to the Platform as decided by the EGM IWG.

Based on the data on expenses given in the Finance Report for 2023/2024 (Doc. AEWA/EGMIWG/9.18) and using the estimated annual budgets for the EGMP Secretariat and Data Centre from previous years as a basis, the Secretariat has prepared an annual EGMP budget estimate for 2025, presented as Annex 1 to this document. It should be noted that the EGM IWG Chair can approve the reallocation of funds between budget lines, as necessary.

At the 7th meeting of the EGM IWG in June 2022 which took place in Helsinki, Finland (EGM IWG7), Range States agreed on an updated indicative scale for voluntary contributions towards the annual EGMP budget based on an accepted cost-sharing formula. The scale is provided in Annex 2 of this document.

Using the 2024 cPOW as a basis and taking into account the EGMP budget estimate for 2025 (provided in Annex 1), a draft cPOW for 2025 has been prepared by the EGMP Secretariat and Data Centre, presented in Annex 3 of this document.

Annex 1. Budget Estimate for the EGMP for 2025

The budget estimate presented in Table 1 for the EGMP Secretariat and Table 2 for the Data Centre, has been calculated on the basis of the financial report for 2023/2024 (Doc. AEWA/EGMIWG/9.18).

The annual EGMP budget includes both staffing costs and operational costs, inclusive UNEP Programme Support Cost (13 per cent) as applicable, for the EGMP Secretariat and Data Centre. However, it should be noted that additional resources will need to be allocated by each participating Range State at national level (e.g. National Working Groups) for the implementation of the recommendations of the EGM IWG and the measures of the International Single Species Action and Management Plans in the remit of the EGMP.

In addition, the budget excludes cost for any additional activities which are not predicted to occur on an annual basis (e.g., development of management and action plans, projects, etc.).

Annex 2. Indicative Scale of Voluntary Contributions towards the EGMP annual budget

The indicative scale of voluntary contributions was initially agreed by the EGM IWG at EGM IWG4 in June 2019, in Perth, Scotland, UK. The scale was calculated based on 50% UN scale of assessment / 50% number of populations per country and with a 15% cap.

With new Range States joining the EGMP, i.e. Ireland in 2022, and taking into account the latest UN scale of assessment, the indicative scale of voluntary contributions was recalculated and adopted at EGM IWG7 (see Table 3).

Table 3. EGMP indicative scale of voluntary contribution based on 50% UN scale of assessment / 50% number of populations per country with 15% cap, applying the latest UN scale of assessment as of 2022 (in EUR). Only the full contribution per country is shown in this table. The AEWa Secretariat will distribute the contributions between the Secretariat and the Data Centre according to the agreed budget.
