

Greylag Goose Session

Greylag Goose AFMP framework Introduction

Doc. AEWA/EGMIWG/5.14

AEWA Secretariat, Eva Meyers

Outline of the AFMP for the NW/SW European population of Greylag Goose

- As agreed at EGM IWG4 in Doc. AEWA/EGMIWG/4.12/Rev. 1
- 1) Establish **Management Units** (MUs; Chapter 1), hierarchical **Favourable Reference Values** (FRVs; Chapter 2) and **population targets** (Chapter 3 and Annex 3) at flyway, MU and national levels iteratively to ensure that national targets are consistent with the flyway targets and with legal requirements at all levels;
- 2) Establish an internationally coordinated **population management programme for both MUs**, including offtake under hunting and, if necessary, under derogations (Chapter 4 and Annex 4) encompassing **monitoring, assessment and decision-making protocols** (Chapter 6 and Annex 7);
- 3) Establish **indicators** to assess progress toward the Fundamental Objectives (Chapter 5 and Annex 6) and guide the implementation of further activities of the Greylag Goose ISSMP **through population-specific workplans** (Annex 1).

Stepwise approach

1. FRVs for the Greylag Goose
2. Population targets above FRVs – Results MCDA
3. Info Gap Analysis
4. Indicators
5. Iterative phase
6. Annual Workplans
7. Final adoption of GG AFMP (Doc. AEWA/EGMIWG/5.14)
8. Establishment of Greylag Goose Task Force (Doc. AEWA/EGMIWG/5.15)
9. Adoption of the AFMP process (Doc. AEWA/EGMIWG/5.12)

AEWA European Goose Management Platform

Greylag Goose AFMP framework Introduction
Doc. AEWA/EGMIWG/5.14

15-18 June 2020
EGM IWG5
Online Conference Format

Action requested from EGM IWG5:

- EGM IWG is invited to provide initial comments on the AFMP for NW/SW population of the Greylag Goose – document **AEWA/EGMIWG/5.14** before moving to the specific sections.
